

## 2009 INTERNATIONAL ½ A TEXACO POSTAL CHALLENGE

SAM 51 of Northern California invites SAM chapters worldwide to compete in this annual model airplane event. You may do your flying on any day, Sept. 19th through Oct. 18th. Pick your day from this 30 day window. Surely, one day in this period will be perfect for you.

Do not change days once you start flying. If a chapter member is unable to participate with your group, he may fly at his location on the chosen day and report the times to you. This postal challenge is a separate event from other contests and should be treated as such.

Record results as follows: NAME; MODEL; WING AREA; FLT. 1; FLT. 2; FLT. 3; TOTAL. The times of the three highest scoring flyers will count, however, list all of your flyers. Team Managers, please comment on the weather encountered, date and location flown and certify that SAM 2006 rules for ½ A Texaco were used. (15 min. max, best two flights out of three) Include your SAM Chapter number, address and telephone number. RESULTS DUE BY Oct. 26, 2009.

Need an entry form? Let me know.

SAM 51 plans to be very competitive again this year. Start tuning up those contrary little .049 engines and get ready. Good Luck!
