

Orbiteers April 9 Monthly Outdoor Contest P-30 Memorial

We will be flying at the SCAMPS field in Perris CA. For field location go to the SCAMPS website at <http://scamps.homestead.com>
<<http://scamps.homestead.com/>>
or the Orbiteers website at www.sandiegoorbiteers.com

This meet will include the Oldenkamp Memorial P-30 event for the Hotbox design P-30 only. Entry for this special event will be \$10.00. But, before you say ain't that a little steep, the cash awards will total \$100.00 with \$50.00 for 1st place, \$30.00 for 2nd place and \$20.00 for 3rd place. The Hotbox was one of the original P-30 class planes and is relatively quick and easy to build. If you don't already have one you've still got time to get one done before the contest.

If you don't have plans for the Hotbox, check with Don Bartick at dbartick@4-warddesign.com. He supplied plans and building text last year and may have some left. If he has none, a copy of the July 1977 Model Builder plan and text are attached. If using the attached plan and enlarging, be careful to scale for the correct P-30 dimensions.

In addition to the Hotbox contest we will also be flying or usual P-30 (any design), Power and Glider (hand launch or catapult) events. Cost for those events will be \$5.00 for each class. I will be the contest director (CD) for the event.

Will be sending an update reminder on April 6 with expected weather conditions etc.
