SAM 21 CLIPPER

Society of Antique Modelers

Chapter 21

AMA Charter Club 1470

Left:

Anybody remember the "Henry's" cartoons, usually depicting dumb mistakes, that ran for years in the Model Aviation magazine? It turns out that SAM 21 has their own 'Henry's' and here they are... Be the first to guess who these two intrepid flyers are and get a second helping from the 'Goodie' plate... (Pictured flyers not eligible, they're rotund enough already)

2016 "GOODIE" Schedule

Here are the assignments for 2016, excusing those who normally do not attend meetings on a regular basis.

If you cannot accommodate this schedule, then **it will be your responsibility to "volunteer"/coerce another member to take your place.** Don't say you weren't warned.

And, if you feel 'The Call' (and aren't on this list), please call one of the unfortunate souls on the list or the 'Standby' and offer to take their place.

JANUARY	Eberhardt
FEBRUARY	Martinez
MARCH	Vanderbeek
APRIL	Peterson
MAY	Leopold
JUNE	Lewis
JULY	Cutler
AUGUST	Gurney
SEPTEMBER	Henry Smith
OCTOBER	Saso
NOVEMBER	Sargent
DECEMBER	Dowling

Standby: Eberhardt

July 28, 2016 MINUTES

Call to order: President Ken Martinez 7:00 PM

Members present: 17

Guests present: 0

Approval of minutes: N/A

Reports:

Treasurer's report: Lescher **Dowling** We are solvent!

Membership report: Lescher **Dowling** 5L, 28R, 14A, Total 47

Competition Report: Dave **Lewis:** Adding Electric Texaco to Crash & Bash

Unfinished Business:

A) **Proposed Electric Classes A, B and C:** Brian **Sargent:** Very extensive report covered inside.

B) **2017 Collecto:** Gurney: Ad has been submitted to MECA.

New business:

A) **Add SAM 21 Fun Fly Date:** Copeland - September 24th at Livermore Flying Electrons field. We will fly all three project aircraft. Top 2 Boxcar and top 2 San Jose will be in fly off.

B) **Build/Fly Project Update:** Copeland – Continuation will have more lead time. Next project design will be chosen by March 1, 2017. First contest no sooner than 2018. This is enough lead time for the kit designers and builders to be ready.

C) **ALOT:** Copeland – SAM does not understand and does not know what is going on. Most pilots don't seem to understand it. Most people already have suitable models. We need two managers on site and have plenty of information available. Brian **Sargent** suggested we use ALES soaring stuff that is readily available rather than SAM specific hardware ALOT is one of the most popular events at the Euro Champs.

BREAK!!! 8:00 PM

Show and Tell:

Bill **Copeland** – Zucchini (please do not ask) (no photographs available – destroyed along with Ms. Clinton's E-mails)

Gary **Leopold** – Transmitter battery, 1300 ma, \$8.00 plus \$10.00 shipping. Super Cyclone with a pill bottle substitute gas tank. An old OS Max 15 cross flow with diesel conversion.

Lescher **Dowling** – Had interesting collection of electric motors of different types. Lescher also brought up the subject of not knowing how to go about the electric motor stuff. No experience in this area! A broad discussion was held about getting help and that this is one of the foremost benefits of belonging to a club. Alan **Peterson** also felt passionately about this subject and as a result was rewarded with the title **Class Instructor Organizer**. (this is a good example to being promoted to your own personal level of incompetence) Next meeting topic: Battery Chargers.

Program: N/A

Adjournment:

Respectfully Submitted: s/s Alan Peterson, Secty

Refreshments: Courtesy of: Rick **Cutler**

Coffee by: **SAM 21** Courtesy of Brian **Sargent**

Next meeting: 8/24/2016 at: 7:00 p.m.

Location: **SARATOGA FIRE DEPARTMENT**

Corner Saratoga Ave & Sunnysvale-Saratoga Hwy

AUGUST 24, 2016 AGENDA

Call to order: President Ken Martinez

Adjournment:

Next meeting: 9/22/2016 at: 7:00 p.m.

Location: **SARATOGA FIRE DEPARTMENT**

Corner of Saratoga Ave and Sunnysvale-Saratoga Hwy

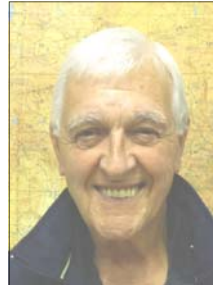

... From The June Meeting

Above: The rich and famous Dr. Joe **Poco** is either showing off his new 'headphones' or he has finally stumbled onto the proper sized wheels for his Boxcar...

... Notes From The Right Seat

Greetings:

I was extremely pleased that the proposed Boxcar/San Jose event at the Flying Electrons Field, scheduled for September, 24 was approved at the July meeting. Last year this (now annual?) event had very good attendance and this year a competition combining the two models should prove even more fun. There is some thought being given to including the Simplex to make it an 'all build and fly project event'.

In addition, there was consensus approval of the proposed 'relaxed' project building schedule. The first steps have already been taken to test the practicability of the 'Committee' approach to the choice of the next project model and scheduling of the first contest to test the new build.

In the meantime, while all the politics are being exercised, based on the success of the Clash of the Titans event, I suggest we start right away to make further use of the project models by discussing the possibility of scheduling as many as two similar events in 2017 - perhaps one at the Schmidt Ranch and the second in Livermore.

Question: How about a nod to the far North enthusiasts by getting approval to locate one of those events at Woodland/Davis?

I was pleased to receive a reply to my rant in this column last month from SAM President, Allen **Heinrich**, who assures that several of the suggestions made in the column are either being implemented or studied. Of major interest includes the publication of SAM Speaks quarterly electronically, as we do with the Clipper, which will save a very large sum of money presently spent on printing and mailing. Allan also has taken up the matter of requiring a report in each issue from each of the district Vice Presidents on activities of Chapters in their districts a very good way to increase communication to promote some important events that now happen in a sort of vacuum thus leading to up to date innovation and other SAM related activities being lost to the general SAM membership. (the 'One Design Build/Fly project' being an example) Another issue that is being reviewed is the Board

Position of 'Chapter Coordinator', presently vacant, to more clearly define the responsibilities of the position and determine if it is useful or just needs propping up.

We will keep an eye out for results, and if nothing happens, we will nominate and run Pres Ken for President... :)

AMA 27944 - SAM 5534 Over and Out...

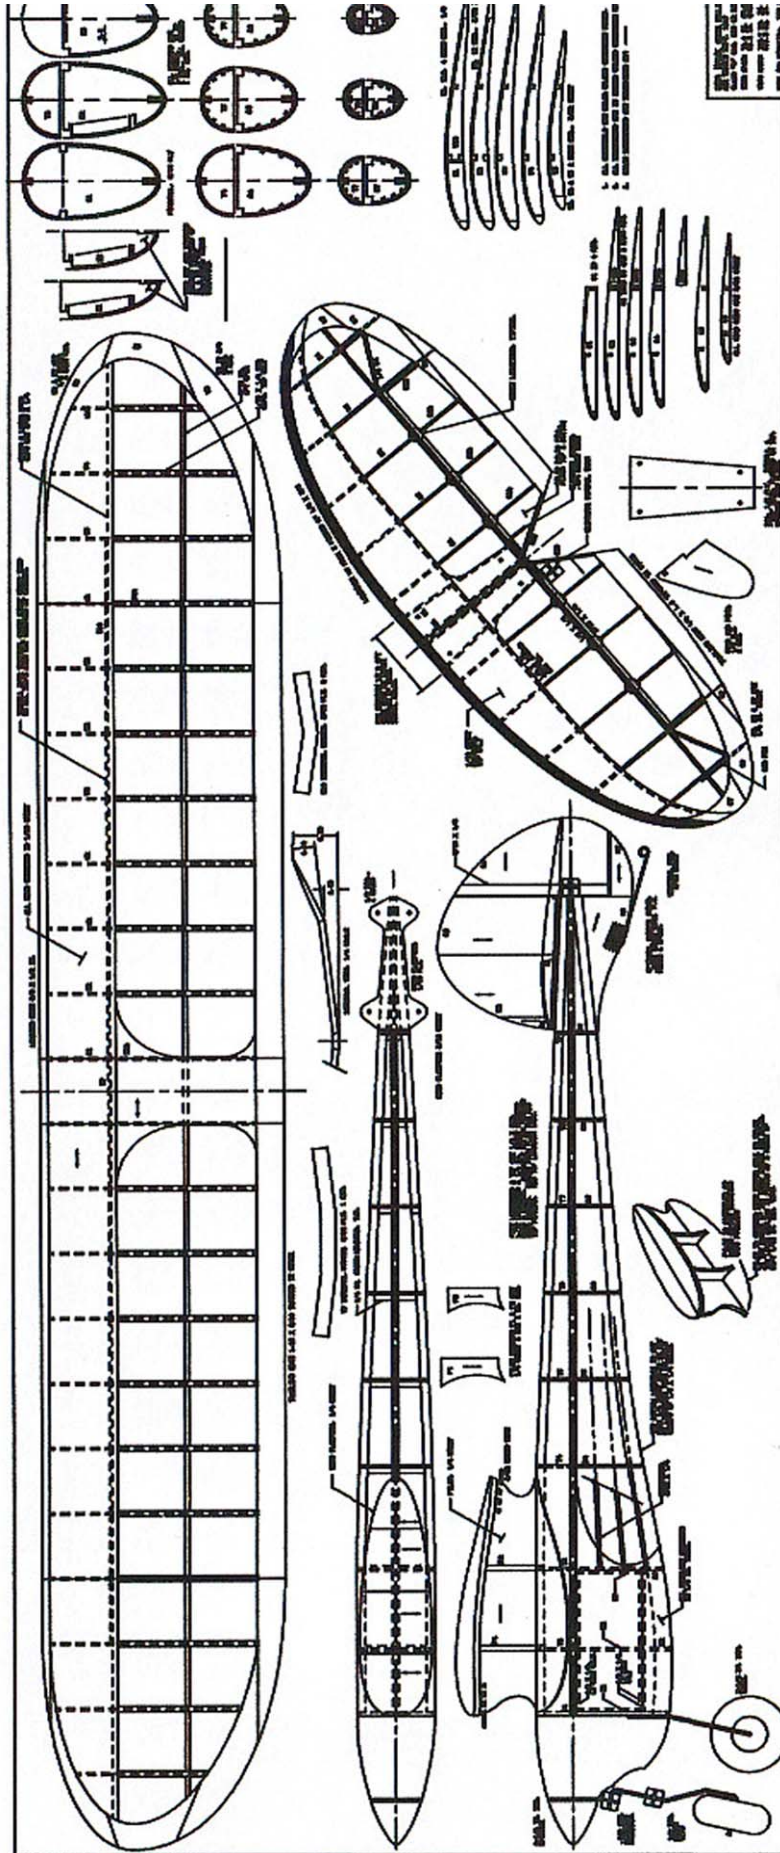

Above: Brian **Chan** demonstrates his newest toy, which he explained is a mini 'camera on a stick'. Claims it is useful for closely inspecting your lost parts, or your mistakes. Says it is also handy for looking in places where your head won't fit. Henry **Smith**, left, seems to be wondering where Brian is going to point it next and is preparing to scoot back in case the 'stick' gets aimed at him or explodes...

Actually the mini cam has many useful features...(I assume you can tell which one is Brian and which one is Henry)

Not to scale

The Seahawk

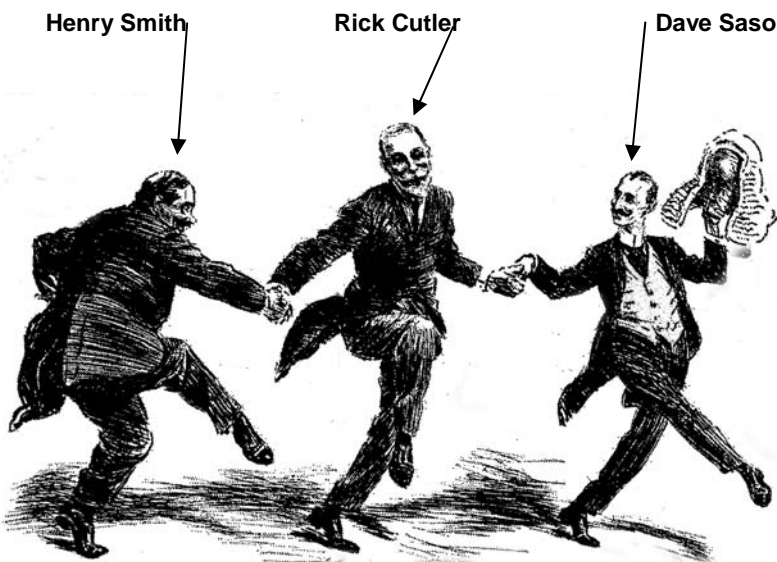

... Strings Too Short To Save

Left: The dotted line approximates the place that the firewall, with motor and other related parts of the Jon **Poco** beautifully restored Comet Sailplane, went missing after an unfortunate gust driven ground loop during the rainy SAM 21 Annual.. As can be seen the missing parts have been successfully grafted back where they belong. The Sailplane rises from disaster to fly again... Originally Built by Dad, Dr. Joe **Poco**, this model has endured several different 'lives'.

Right: Another puzzle. Can anyone identify this well known modeler seen at the recent SAM 21 Schmidt Ranch Annual ? Could it be another 'Henry'?

Left: Excited SAM 21 members celebrate Dave **Saso's** 14 second !/2 A flight at a recent Dwarfs field event...

SAM 27 Proudly Presents The 41st Annual SAM 27 Crash & Bash

2016 September 9, 10, 11, Friday, Saturday, Sunday
Schmidt Ranch, 11948 Franklin Boulevard, Elk Grove, California

CALLING ALL BENNY BOXCAR AND SAN JOSE Builders/Fliers

COMPETE IN HEAD TO HEAD COMPETITION...

CURRENT AMA MEMBERSHIP REQUIRED

GATE OPENS AT 7:00 A.M. \$5.00 ENTRY FEE INCLUDES DRINKS

GET YOUR LUNCH FROM ON FIELD FOOD TRUCK

ALL FLYING ELECTRONS FIELD RULES WILL BE STRICTLY OBSERVED

2016 'Clash' Rules:

Eligibility:

- The only 'approved' models are: Henry Struck's, **Benny BoxCar - 72** and the **San Jose** as kitted by either Klarich, John Eaton or Holman, or built from published magazine plans.
- Minimum deviation from plan outlines will be observed. The airfoil will not be altered in any way. Balsa sizes can be changed and 'hardwood' may be substituted. Two wheel landing gear required, location optional.
- Motor to be a brushless, outrunner in the '480 class' with a max. rating of 1100kv; battery, 2S or 3S LIPO.
- LMR to match weather conditions (20 or 30 secs) will be determined by conditions at pilot briefing)
- **ROG required** assuming suitable weather/decent take off area.
- No minimum weight.
- Pilots Briefing at 8:30. (**mandatory**) Flying preliminary rounds begins at 9:00 and ends at 11:30. Flyoff conducted **following lunch**
- The project is intended to be **Fun**.

Flight procedures:

- All entrants will be eligible for the preliminary round.
- Motor run will be limited to 30 seconds for the first round.
- **All flights** will be individually timed. Flight declaring an '**emergency**' restarts will be timed only until 'restart' called by pilot.
- A limit of three flights per entrant will be allowed for the preliminary round. Max flight time 15 mins. for all preliminary rounds..
- The times of up to **three flights for Boxcars and San Jose's** will be **totaled** to determine advancement to the next or Championship round. The four best total times of each preliminary round advances to an additional preliminary round if needed. The two highest time totals of the preliminary round, or rounds for **Boxcars and San Jose's each**, will be qualified to compete in the Championship flyoff.
- In the event that there are tie max scores in the first round, such tie scores will each be counted as a qualifier for a second preliminary round. and so on until only four best time qualifiers are determined.
- The two winners of the **Boxcar and San Jose** qualifying round, or rounds, will compete in a mass **ROG launch** with a 20 sec motor run,
- **Best flight time, Boxcar or San Jose, W/O motor restart, will be declared the winner and Champion...**
