Report No. 13'  
*Cleveland Cloudste*  
*February 18, 20*

I had to get a haircut at 10:00 a.m. this morning and didn't start covering manage to get all four of the wing's top rear panels covered with transpc stopped for the day. Notice that the white portion of the top of the wir covering is finished, the top of the wing's entire center section will be c edge back to the trailing edge.....Tandy
