Report No. 21

*Veco Pursuit*

*October 2, 2021*

Sometime yesterday afternoon FedEx delivered two packages to our front porch. The one from Horizon Hobbies contained the three Hitec HS-85BB servos shown on the right below. The one from Tower Hobbies contained the 7 channel Futaba R617FS 2.4 GHz receiver, the Futaba switch harness, and the two control horns shown below. However, Tower back ordered the two Sullivan Gold-N-Cable 507 pushrod sets. So this morning I ordered the two Sullivan pushrod sets from Horizon Hobbies.....Tandy
