

FLYING NORTH – A GOLDMINE FOR VINTAGE AND NOSTALGIA FLYERS

There's been an encouraging response to the idea of a re-print of Flying North, the book covering the model flying career of Jack North, one of the major figures in British free-flight from the 1940s to the '80s.

With 23 previously unpublished plans, 163 pages and 130 photographs, this book includes fascinating reminiscences by colleagues, re-prints of all Jack North's published plans and articles, including his later extensive work on thermal detection, and an outline of the professional career that made him such a respected name in high-speed aerodynamics.

Readers seem to have enjoyed it:

"... no other modeller's life and times can ever have been so comprehensively covered"

"I hope it becomes a classic."

"I am glad I bought Flying North. such a huge chunk of nostalgia"

"... am immensely impressed. A splendid effort"

"A fitting memorial to an unforgettable personality. I am sure the book will become an instant classic, treasured by aeromodellers all over the world"

"A very balanced record of Jack's modelling and professional activities"

"The best aeromodelling book since the Zaic Yearbooks"

Proceeds from sales help to fund the teams representing the UK in World and European F/F Championships.

A spiral-bound version has been produced as a short print run, which is available now. To get your own copy of this unique record of this prolific free-flight designer, phone or fax Martin Dilly on +44 20 8777 5533, write to 20, Links Road, West Wickham, Kent BR4 0QW, UK, or e-mail: martindilly@compuserve.com.

The price is £18; airmail to Europe £20 or to anywhere else £22. Cheques should be payable to BMFA F/F Team Support Fund, in pounds sterling only, and drawn on a bank with a branch in the UK; you may also order by credit card.
