**Subject:** 9Added Elevator Diagonals

In response to my last Bomber construction report (*8Bomber Horizontal Tail Framing*), I received a message from Alfredo Herbon down in Argentina. He suggesting that with such a large elevator I should consider adding diagonal ribs. After thinking about it for a while, I decided I liked his idea. So this afternoon I drew up, cut out, and glued in the eight diagonal elevator ribs as shown below. Thanks for the input Alfredo.....Tandy
