I quoted the *CG* wrong in first report. See revision below.....Tandy

Subject: 62 96" Bomber Structure Complete

I did a quick and dirty *CG* check of the Bomber airframe with engine and radio installed today. As shown below, it came out ahead the mid point of pylon wing saddle. Therefore, I feel the finished model's *CG* will be pretty close to 50 %.

Now I plan to hang the Bomber up for a while and finish the T-Bird before I start covering the Bomber. However, I will go on and order the covering material now.....Tandy
