Tandy,

If the lipo is dead just throw it in the garbage.

That is one of the good things about Lipos, they are "Green" friendly once they are discharged.

You can just chuck them in the garbage.

I guess you must have got your plane back. I never got that email.

On the ESC, Hobby Lobby has a half price replacement deal even on ESC from lost airplanes.

Call Hobby Lobby and ask for David Whitley, tell him you are a friend of mine and tell him that you want the half price deal. Then tell him that I suggested that you upgrade to the 20 amp to make Jack Happy.

Also I would never never trust a radio and servos that have sat out in moisture. Too much risk for some problem later on. Would you trust a RC model that flies over people and houses or buildings at times when you know that it had some questionable treatment? It had to be exposed at time to Dew conditions and permeating moisture.

That is my opinion.

Jay Burkart

Hi Jay,

Thank you again for all of your direction and advise. I just got through calling and placing an order for a Li-Po replacement battery pack, 20 amp ESC (**Jack Hiner's input**), and three package of polarized connectors with David Whitley at Hobby Lobby, which is shown below. As for the ESC upgrade from a JES 012 to a JES 020, he said the half price replacement deal would be below his cost. However, he made me special deal on the ESC because I said you had me call him. :O) He told me to just keep my JES 012 and he would send me a new JES 020 at a reduced cost of only \$29.99. He also dropped the price of the connectors from \$7.99 to \$6.99 for some reason! However he was out of stock on the ESC and the battery pack. The battery pack is supposed to be there next week, but the JES 020 ESC's won't be in until the middle of June. So what, it will take me that long to get a new Cloudster 300 built and ready to fly. So I told him to keep everything until he had it all before he shipped.....Tandy

Dear tandy,

Thank you for placing your order with Hobby-Lobby. We have been providing radio-control fun for over 40 years! We know you had a choice with whom you do business and we appreciate your choosing Hobby-Lobby! Your order number is 0002066272.
