Subject: 69 J-3 Cub Wing Letters/Numbers on Both Wings

Today I repeated the letter/number application process on the bottom of the left wing panel. The picture belows shows the tissue Amarillo USAF letter/numbers on both wing panels placed side by side.

Over the last day or so I have had a number of inputs on good ideas on how to go about gluing the windshield on the J-3 Cub, which is going to be my next task. I will cut the windshield out of the styrene this afternoon and walk through a several trial fittings to see how this is going to work. At some point, I will bit the bullet and just start gluing it on. Wish me luck!.....Tandy
