Scaled Up 1/2A Fubar 375

August 17, 2019

I placed the following decal order with Callie Graphics. Make one set of the decals for the wing of my new Fubar model shown below. Make them out of thin white vinyl using Bold Arial font. Both the right and left wing should have the same size font. Use the dimensions as a guide because they are not that critical.

Also make 3 sets of my FAA registration number shown below out of thin black vinyl using AmarilloUSA font.

E-mail me the cost plus postage and I will put you a check in the mail Monday Morning.....Tandy
