Scaled Up 1/2A Fubar 375

August 23, 2019

I started covering the stab yesterday afternoon and finished it this afternoon. I used transparent red with yellow inserts of UltraCote Lite offset with 1/4" black striping tape shown below. This was Ray Matthews' standard color scheme on all of his Fubars. There was not enough time today to cover the two elevator halves, but I will cover those tomorrow.....Tandy
