*Scaled Up 1/2A Fubar 375*

*August 29, 2019*

Today I started covering the wing and I always start on the bottom first. This picture to shows the bottom covering that was finished this afternoon, except for the black striping tape transitions between the red and yellow colors. I have ordered a new roll of Hangar 9's 1/4" black UltraStripe from Tower Hobbies, which should be soon, maybe today.....Tandy
