 Subject: 8 Lancer 850 - Received Second Order

*New Cyclone Lancer 850*

*December 3, 2017*

As most of you know Bob Holman is in the business of selling vintage model plans and laser cut balsa part short kits. Bob orders all of his balsa items from the Bud Nosen Model Company. He has a standing offer to order balsa strip and sheet wood for the SAM guys if they provide him a list. So last Monday I sent Bob the following message order for my new Lancer 850 project:

*Bob,*

*Please order all the balsa wood items in the table below and ship them to me. Once you know the cost of the shipping, e-mail me the total cost and I will put you a check in the mail. Please confirm my order.....Tandy*

| Lancer 850 Balsa Order for Bob Holman<br>(11/26/17) |                    |     |                |          |
|---|--------------------|-----|----------------|----------|
| No.   | Item               | Qty | Strip Balsa    | Hardness |
| 1   | Tail Spars         | 3   | 1/4 x 3/8 x 36 | Med-Hard |
| 2   | Tail LE            | 2   | 1/4 x 3/8 x 36 | Med      |
| 3   | Fuselage Stringers | 10  | 1/8 x 1/4 x 48 | Med      |
| 4   | Wing Spars         | 4   | 1/8 x 1/4 x 48 | Med-Hard |
| 5   | Fuselage Longerons | 6   | 1/4 x 1/4 x 48 | Med-Hard |
| 6   | Fuselage Frame     | 6   | 1/4 x 1/4 x 48 | Med      |
| 7   | Wing Spars         | 4   | 1/4 x 1/4 x 48 | Med-Hard |
| 8   | Wing LE            | 3   | 3/8 x 1 x 48   | Med      |

  

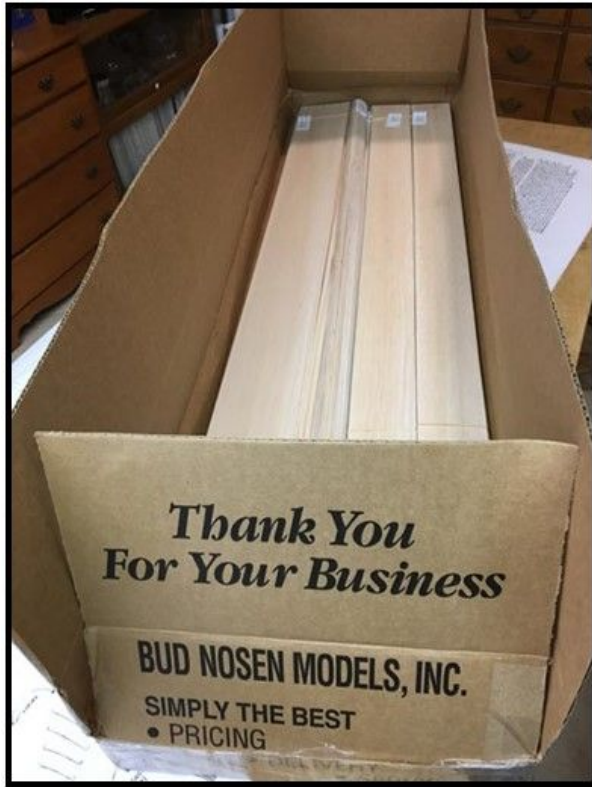

| No. | Item             | Qty | Sheet Balsa   | Hardness |
|-----|------------------|-----|---------------|----------|
| 9   | Wing LE Planking | 4   | 1/16 x 4 x 48 | Med      |
| 10  | Extra Balsa      | 4   | 1/16 x 3 x 36 | Med      |
| 11  | Extra Balsa      | 2   | 1/8 x 3 x 36  | Med      |
| 12  | Wing Ribs        | 5   | 1/8 x 3 x 36  | Med      |
| 13  | Tail TE          | 1   | 3/16 x 3 x 36 | Med      |
| 14  | Tail TE Also     | 1   | 1/4 x 3 x 36  | Med      |

Bob had the Bud Nosen Company drop ship the order directly to my home, which arrived in the long cardboard box shown below yesterday afternoon.

I opened the box, removed the packing paper, and found the most beautiful AAA grade balsa wood all individually labeled as shown below.

This picture shows the ten (10) labeled bundles of wood taken out of the box and placed on the work table in the model room.

After a careful inventory of the 10 bundles, I only found major one error. Item No. 8 (Wing LE) was **one 3/8" X 3" X 48" sheet** as shown below instead of **three 3/8" X 1" X 48" strips**. If I cannot find the 3/8" X 1" X 48" strips at a hobby shop, then I will try and find a cabinet maker to rip the 3/8" X 3" sheet using a hollow ground saw blade.

Yesterday I also received the four sets of motor mount standoff's and two screw/spacer fastener kits shown below from Hobby King. I had to wait so many weeks for their arrival as they had to be shipped from their Hong Kong warehouse in China.

I assembled the motor mount with 3-1/2" standoffs and placed it on the Lancer 850 fuselage plan shown below. I won't know exactly where to place the 1/8" plywood firewall until the NEU electric motor is delivered, which should be in the next week or so.....Tandy
