Subject: 28 Rocketeer A - Framing the Sub RudderWeb Site: [Tandy's Model Aircraft](#)*Rocketeer A**January 1, 2015*

Sue and I slept in this morning. We got up and watched all of the floats and marching bands in the Rose parade on TV. Since it is a lazy day and I had a little free time, I cut out the R-4 and R-5 parts from 3/16" sheet and framed up the Rocketeer's sub rudder shown below. I used the steel rod to insure the sub rudder's base was straight.....Tandy
