**Subject:** 85 Rocketeer A - Polyspan Lite Covering on Wing (Part 3)

Web Site: [Tandy's Model Aircraft](#)

*Rocketeer A*

*March 23, 2015*

I spent most of the day today covering the four top panels of the Rocketeer A's wing with Polyspan Lite. I just finished putting on one coat of clear nitrate dope as shown below. After drying overnight, two more coats of clear dope will be brushed on tomorrow and the second covering with yellow silk will begin. Double covering this model with yellow silk over Polyspan Lite is definitely a tedious and time consuming process, but I feel that the final finish is well worth all of the effort involved.....Tandy
