M.E.C.A. 4219-07

Tandy Walker is a retired registered professional engineer in Aeronautical Engineer. He has been a licensed private pilot and was active in the Experimental Aircraft Association. He has been a modeller for over 67 years and has built and flown rubber power, control line stunt and combat, free flight, radio control sport, and quarter scale models. For the past fifteen years he has been an active builder and competitor in the Society of Antique Modelers as well as a vintage model engine collector and restorer.

This CD contains a series of 180 Sailplane e-mail reports that takes you through the detail ten month step by step procedure he used to construct the 1940 Comet Sailplane, the flight tests, and the 2010 SAM Champs Concours de Elegance competition.
