Subject: 145 Stinson Reliant SR-7 - Baggage Door and Wing Strut Paint

Stinson Reliant SR-7
March 3, 2016

After dinner last evening, I realized that I had overlooked the baggage door in the previous Report No. 144. The Stinson Reliant has a small door on the right side just aft of the cabin area for the baggage compartment, which is shown on the side view of the Comet plan below.

This picture shows the baggage door outline put on with Sig's 1/16" black striping tape last night.

I also painted the two wing struts with two coats of Tamiya X-7 red acrylic paint as shown below....Tandy
