Report No. 20

*Veco Pursuit**September 29, 2021*

After only five days from the time I placed my order with Sig Manufacturing, FedEx delivered the balsa order yesterday afternoon late. The balsa wood was complete, carefully packed, and arrived with no damage as shown below. For your information, the quality of both the strip and sheet wood are excellent (*not too light, not too heavy*). From now on I will be ordering all my balsa from Sig with a high degree of confidence. Now to start construction of the horizontal tail this afternoon.....Tandy
